Research Informatics @ Swiss TPH

How we support your research projects

Jiayu Wang
Scientific Collaborator, Research Informatics

Swiss TPH

What is Research Informatics?

We bridge science 🔍 and IT 🖥️

What can we do?

- 🚀 Support research-specific technical needs
- 💡 Translate scientific ideas to IT solutions
- 📜 Work across the full research lifecycle
- ……

We help you move from concept to implementation.

When should you contact us 📩

- 📈 Need structured data collection (ODK / REDCap)
- 🖥️ Need HPC access (sciCORE cluster)
- 👩‍💻 Want help with R / Python
- 📊 Need advice on data visualisation or analysis
- 🪪 Need software licences
- ……

If unsure -> email us. We guide you.

Swiss TPH

Core Services

Data Collection Platforms

ODK and REDCap:

- Field data collection
- Clinical / structured datasets
- Longitudinal studies
- Complex survey logic
- Data management
- ……

Support emails :

odk@swisstph.ch

redcap@swisstph.ch

High Performance Computing (HPC) 🖥️

If your laptop is too small for your data,

we help with:

- Getting sciCORE access
- Job submission (SLURM)
- Workflow optimisation

Typical use cases:

- Machine learning
- Genomics
- Modelling
- Large epidemiological datasets
- Simulation studies
- ……

Data Science 📊

We support:

- R / RStudio
- Python / Anaconda
- WSL setup
- Quarto (reproducible reports)
- GitHub workflows

Support emails ✉️:
research-it@swisstph.ch (general)
wsl.support@swisstph.ch

Goal - Make your research:

- Reproducible
- Shareable
- Efficient
- Publication-ready

Research computing and data community team

Bioinformatics channel

Consulting & Training 💁

We provide:

- AI strategies
- Student / staff training (ODK and REDCap, scientific illustration, HPC, Quarto)
- Research technical help
- Software coordination
- Collaboration with other Units

Contact us early, not when things break on the DDL date.

We don’t just fix problems — we build capacity:

How to Request Help?

Meet the team

Aurelio

Hélène

Simona

Jiayu

Zhihan

General
research-it@swisstph.ch

REDCap
redcap@swisstph.ch

ODK
odk@swisstph.ch

WSL
wsl.support@swisstph.ch

How to request help

1. Prepare your question:

- What you did?
- What do you expect?
- What actually happened?
- What have you done to fix it?

2. Send us an email or ask in the channels

We commit to respond as soon as we can and help you define the right path.
